THE LAKEVIEW INTERMEDIATE SCHOOL

BEGINNING BAND PROGRAM

Did you know?

* As a 5th grade student, your child has the opportunity to learn a band instrument as part of their school day?

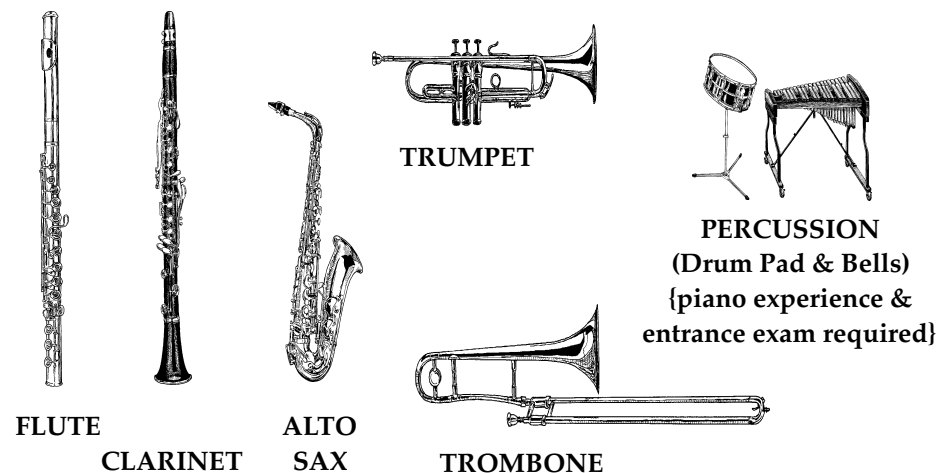

* Researchers have found that band participation:

- Enhances High Brain Function
- Improves Reading & Math Performance
- Raises IQ Scores & Proficiency Scores
- Provides Important Experiences that can help physical coordination, timing memory, visual, aural & language skills.
- Enhances Cooperation Builds
- Teamwork Skills

As a parent of a fifth grade student, you have the opportunity to have your child become a part of the award winning **Stow-Munroe Falls Band Program**. As part of the program your child will receive a 50 minute lesson in place of their music class every third day. **The lesson** is a small group lesson, with similar instruments. Within this class, students will learn how to play the instrument, read music, how to care for their instrument and how to practice.

Once your child has successfully started, her/she will be asked to attend a full band practice in addition to their half hour lesson. **Full band** is a combined group where all instruments play together. This will begin about the fifth week of instruction. In full band your child will learn music which will be performed at three concerts during the school year (December, March & May).

During the week of August 28, our band staff will present a short program demonstrating the instruments of the band to all fifth grade music classes. Every student will have the opportunity to try each of the band instruments listed below. This will give your child the chance to determine which instrument is best suited for him/her. The instruments that student may play in 5th grade are listed below. (pictures are not to size or proportion)

Because we begin instruction on each of these instruments there are **no prerequisites excepts for those who wish to play percussion.**

PERCUSSION, BUT I WANT TO PLAY THE DRUMS???

The percussion family covers many instruments, bells, xylophones, cymbals, timpani and of course drums. As a fifth grade student, the new percussionist will learn to play **both Keyboard Percussion** (the bells) and the **Drum** (or drum pad).

Because percussion students learn both drums and bells during the same lesson, prospective percussion students need to have at least one year of lessons on piano. The potential percussion student will also be asked to take an **Entrance Evaluation** which evaluates musical knowledge and physical coordination. The **Percussion Entrance Evaluation** will take place on Friday, Sept 1 or Wednesday, Sept 6 at 7:30 AM in the Cafeteria. This is only necessary if the child wishes to play percussion. Due to the limited number of students percussion lessons will take place before school at 7:30AM on Friday mornings.

I know my child wants to play in band, can I get an instrument & have him start before the school classes start?

We have found that students develop bad habits that are difficult to correct when not taught to play an instrument correctly. **We highly recommend waiting until the child has been through the Demonstration Program before they select an instrument to play.** For a beginning band student nothing is more frustrating than trying to learn an instrument for which they are not physically suited.

I saw an instrument at a warehouse store that is very affordable, can I just buy this instrument for my child to use.

Following the Instrument Demonstration your child will be given information concerning renting an instrument and the lesson book needed for the class. **We do not recommend instruments sold by non-music stores.** Most of these instruments are imported from China and are not of an acceptable quality for your child. In addition many can not be serviced or repaired when damaged.
